Subject index

Adsorbates
Comparing hyperthermal molecular and atomic ion sputtering of adsorbates: Xe^+ versus SF_5^+ on NH_3/CO/Ni(1 1 1) 231
Alkali
The connection between multi-state resonant charge transfer dynamics and many-electron states in atom–metal surface scattering 267
Atomic projectiles
Molecular dynamics simulations to explore the effect of projectile size on the ejection of organic targets from metal surfaces 155

Benzene molecular ion
Surface-induced reactions and decomposition of the benzene molecular ion $C_6H_6^+$: Product ion intensities, angular and translational energy distributions 53

Cds surface
Element-, velocity- and spatially resolved images of Kr^+ scattering and recoiling from a CdS surface 305
Charge transfer
Charge transfer from $I_2^+(CO_2)_n$ cluster anion to silicon surface: cluster-size dependence 297
The connection between multi-state resonant charge transfer dynamics and many-electron states in atom–metal surface scattering 267
Cluster at keV and MeV energies
Cluster impacts at keV and MeV energies: Secondary emission phenomena 101
Cluster ions
Charge transfer from $I_2^+(CO_2)_n$ cluster anion to silicon surface: cluster-size dependence 297
Cluster projectiles
Kiloelectron volt cluster impacts: prospects for cluster-SIMS 167
Molecular dynamics simulations to explore the effect of projectile size on the ejection of organic targets from metal surfaces 155
Clusters
The transition from recoil to shattering in cluster–surface impact: an experimental and computational study 35
Collision dynamics
Microcluster–surface interactions: a new method for surface cleaning 253
Collision induced dissociation mechanisms
Surface-induced dissociation of H_3^+ and $C_4H_{10}^+$ on Pt(1 1 1) and CH^+ on Cu(1 1 1) 73
Collisions
Dissociative scattering of polyatomic ions from metal surfaces: CR_3^+ on Ag(1 1 1) and Ba/Ag(1 1 1) 11
Condensed phase
Soft-landed ions: a route to ionic solution studies 219
$Cr(CO)6^+$
Simulations of energy transfer in $Cr(CO)_6^+$ surface-induced dissociation 1
Cs-carrying cations
Sputtering of Cs-carrying diatomic cations from surfaces by keV Cs^+ irradiation 119
Cs^+
Reactive scattering of Cs^+ from chemisorbed molecules on a Ni(100) surface. Secondary neutral mass spectrometry with a hyperthermal ion beam 143

Diphenyl ether
Surface-induced dissociation of diphenyl ether 81
Disappearance cross section
Static SIMS investigation of tetraethylammonium bromide on soil particles using ReO_4^- and Ga^+ projectiles 129
Dissociation fragments
Engineering surface reactions with polyatomic ions 245
Dissociative scattering
Dissociative scattering of polyatomic ions from metal surfaces: CR_3^+ on Ag(1 1 1) and Ba/Ag(1 1 1) 11
Dynamics
The connection between multi-state resonant charge transfer dynamics and many-electron states in atom–metal surface scattering 267

Elastic collision cascades
Nonlinear effects ion ion emission from LiF induced by N^+ and N_2^+ MeV ion impact 179
Electron emission
Electron emission from a clean gold surface bombarded by slow multiply charged fullerenes 317

Electron transfer
Surface-induced dissociation in H_2^+ collisions studied with ion impact electron spectroscopy 285
Emission yield
Molecular dynamics simulations to explore the effect of projectile size on the ejection of organic targets from metal surfaces 155
Energy conversion efficiency
Surface-induced dissociation of diphenyl ether 81
Energy transfer
Simulations of energy transfer in $Cr(CO)_6^+$ surface-induced dissociation 1

Fragmentation
Are peptides without basic residues protonated primarily at the amino terminus? 95
Fullerenes
Electron emission from a clean gold surface bombarded by slow multiply charged fullerenes 317

Gold
Electron emission from a clean gold surface bombarded by slow multiply charged fullerenes 317

Hot electron scattering
Surface-induced dissociation of H_3^+ and $C_4H_{10}^+$ on Pt(1 1 1) and CH^+ on Cu(1 1 1) 73
Hyperthermal
Reactive scattering of Cs^+ from chemisorbed molecules on a Ni(100) surface. Secondary neutral mass spectrometry with a hyperthermal ion beam 143

Instrumentation
Characterization of a new in-line SID mode and comparison with high energy CID 63
Ion emission
Nonlinear effects in ion emission from LiF induced by N^+ and N_2^+ MeV ion impact 179
Ion scattering
Reactive scattering of Cs^+ from chemisorbed molecules on a Ni(100) surface. Secondary neutral mass spectrometry with a hyperthermal ion beam 143
Ion/surface reactions
Surface-induced dissociation of diphenyl ether 81
Ionic solution studies
Soft-landed ions: a route to ionic solution studies 219
Ions–solid collisions
Cluster impacts at keV and MeV energies: Secondary emission phenomena 101
Irradiation
Sputtering of Cs-carrying diatomic cations from surfaces by keV Cs^+ irradiation 119

Kr^+ scattering
Element-, velocity- and spatially resolved images of Kr^+ scattering and recoiling from a CdS surface 305

Metal surface
Dissociative scattering of polyatomic ions from metal surfaces: CR_3^+ on Ag(1 1 1) and Ba/Ag(1 1 1) 11
Microclusters
Microcluster–surface interactions: a new method for surface cleaning 253
Molecular and ion sputtering
Comparing hyperthermal molecular and atomic ion sputtering of adsorbates: Xe^+ versus SF_5^+ on NH_3/CO/Ni(1 1 1) 231
Molecular dynamics simulations
Molecular dynamics simulations to explore the effect of projectile size on the ejection of organic targets from metal surfaces 155
Molecular ions
Dissociative scattering of polyatomic ions from metal surfaces: CR_3^+ on Ag(1 1 1) and Ba/Ag(1 1 1) 11
Molecule–solid interaction
Surface-induced dissociation in H_2^+ collisions studied with ion impact electron spectroscopy 285
Monolayer surfaces
Soft landing of polyatomic ions for selective modification of fluorinated self-assembled monolayer surfaces 193
MS/MS
Characterization of a new in-line SID mode and comparison with high energy CID 63

N-Terminal amino group
Are peptides without basic residues protonated primarily at the amino terminus? 95
Neutralization
Dissociative scattering of polyatomic ions from metal surfaces: CR_3^+ on Ag(1 1 1) and Ba/Ag(1 1 1) 11
Nonlinear effects
Nonlinear effects ion ion emission from LiF induced by N^+ and N_2^+ MeV ion impact 179

Peptide dissociation
Characterization of a new in-line SID mode and comparison with high energy CID 63
Peptides
Are peptides without basic residues protonated primarily at the amino terminus? 95
Polyatomic ions
Dissociative scattering of polyatomic ions from metal surfaces: CR_3^+ on Ag(1 1 1) and Ba/Ag(1 1 1) 11
Engineering surface reactions with polyatomic ions 245

Soft landing of polyatomic ions for selective modification of fluorinated self-assembled monolayer surfaces 193
Polyatomic projectile
Static SIMS investigation of tetraethylammonium bromide on soil particles using ReO_4^- and Ga^+ projectiles 129
Polyatomic projectiles
Kiloelectron volt cluster impacts: prospects for cluster-SIMS 167
Potential emission of electrons
Surface-induced dissociation in H_2^+ collisions studied with ion impact electron spectroscopy 285

Reactive scattering
Reactive scattering of Cs^+ from chemisorbed molecules on a Ni(100) surface. Secondary neutral mass spectrometry with a hyperthermal ion beam 143
Recombination processes
Kiloelectron volt cluster impacts: prospects for cluster-SIMS 167
Resolved images
Element-, velocity- and spatially resolved images of Kr^+ scattering and recoiling from a CdS surface 305

SAM surfaces
Simulations of energy transfer in $Cr(CO)_6^+$ surface-induced dissociation 1
Secondary emission
Cluster impacts at keV and MeV energies: Secondary emission phenomena 101
Secondary ion mass spectrometry
Kiloelectron volt cluster impacts: prospects for cluster-SIMS 167
Reactive scattering of Cs^+ from chemisorbed molecules on a Ni(100) surface. Secondary neutral mass spectrometry with a hyperthermal ion beam 143
Self-assembled monolayer
Surface-induced dissociation of diphenyl ether 81
SF_5^+
Comparing hyperthermal molecular and atomic ion sputtering of adsorbates: Xe^+ versus SF_5^+ on NH_3/CO/Ni(1 1 1) 231
Shattering
The transition from recoil to shattering in cluster–surface impact: an experimental and computational study 35
Silicon surface
Charge transfer from $I_2^+(CO_2)_n$ cluster anion to silicon surface: cluster-size dependence 297
SIMS
Static SIMS investigation of tetraethylammonium bromide on soil particles using ReO_4^- and Ga^+ projectiles 129
Site of protonation
Are peptides without basic residues protonated primarily at the amino terminus? 95
Soft landing
Soft landing of polyatomic ions for selective modification of fluorinated self-assembled monolayer surfaces 193
Soft-land ions
Soft-landed ions: a route to ionic solution studies 219
Soil particles
Static SIMS investigation of tetraethylammonium bromide on soil particles using ReO_4^- and Ga^+ projectiles 129
Sputtering
Sputtering of Cs-carrying diatomic cations from surfaces by keV Cs^+ irradiation 119
Surface cleaning
Microcluster–surface interactions: a new method for surface cleaning 253
Surface impact
The transition from recoil to shattering in cluster–surface impact: an experimental and computational study 35
Surface induced dissociation
Characterization of a new in-line SID mode and comparison with high energy CID 63
Surface-induced dissociation of H_3^+ and $C_4H_{10}^+$ on Pt(1 1 1) and CH^+ on Cu(1 1 1) 73
Surface scattering
The connection between multi-state resonant charge transfer dynamics and many-electron states in atom–metal surface scattering 267
Surface-induced decomposition
Surface-induced reactions and decomposition of the benzene molecular ion $C_6H_6^+$: Product ion intensities, angular and translational energy distributions 53
Surface-induced dissociation
Surface-induced dissociation of diphenyl ether 81
Surface-induced dissociation (SID)
Surface-induced dissociation in H_2^+ collisions studied with ion impact electron spectroscopy 285

Tetraethylammonium bromide
Static SIMS investigation of tetraethylammonium bromide on soil particles using ReO_4^- and Ga^+ projectiles 129
TOF mass spectrometry
Cluster impacts at keV and MeV energies: Secondary emission phenomena 101

Ultrahigh vacuum chamber
Engineering surface reactions with polyatomic ions 245

Xe^+
Comparing hyperthermal molecular and atomic ion sputtering of adsorbates: Xe^+ versus SF_5^+ on NH_3/CO/Ni(1 1 1) 231
